**FISCAL IMPACT STATEMENT**

**LS 6317**

**BILL NUMBER:** HB 1059

**NOTE PREPARED:** Jan 26, 2005

**BILL AMENDED:** Jan 25, 2005

**SUBJECT:** Chemical Munitions Disposal and Transport.

**FIRST AUTHOR:** Rep. Grubb

**FIRST SPONSOR:**

**BILL STATUS:** CR Adopted - 1<sup>st</sup> House

**FUNDS AFFECTED:**     **GENERAL**  
                              **DEDICATED**  
                              **FEDERAL**

**IMPACT:** No Fiscal Impact

**Summary of Legislation:** (Amended) This bill provides that a hazardous waste facility that generates or treats certain hazardous wastes associated with chemical munitions must demonstrate that the wastes will be destroyed or treated to certain standards or levels. It requires the Department of Environmental Management to implement an inspection and oversight protocol to ensure enforcement. The bill also requires a person proposing to transport chemical munitions or hazardous waste derived from chemical munitions to file with the Department, the State Police Department, and the State Emergency Management Agency a transport risk analysis and a transport safety plan, including an estimated shipment schedule.

**Effective Date:** Upon passage.

**Explanation of State Expenditures:** This bill will require a person proposing to transport munition-related hazardous wastes to provide their own transport risk assessment. According to IDEM, the Department has currently spent \$13,000 on contracting out transport risk assessments and has encumbered another \$10,000 for this purpose. These expenses are paid through the Newport Cooperative Agreement IDEM has with the U.S. Department of Defense. Because these federal funds from the agreement may not be utilized for any other IDEM expenditures, this provision of the bill will not have an impact on the agency.

IDEM is currently in the process of implementing an inspection and oversight protocol, therefore the provision requiring such a protocol will have no additional impact on the Department.
